EDUCATION

Chennai Institute of Technology

Expected Graduation: May 2029

Bachelor of Engineering (B.E.) in Computer Science and Engineering (CGPA: 9.12 / 10)

Chennai, India

- Academics:** Class XII: 96.6% | JEE Main: 91 Percentile
- Core Coursework:** Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

TECHNICAL SKILLS

Languages & DBs : C++, Java, Python, JavaScript, SQL, MySQL, PostgreSQL, MongoDB, ChromaDB

AI & Frameworks : RAG, NLP, LLMs, LangChain, PyTorch, Hugging Face, Scikit-learn, FastAPI, Flask, React, Docker

EXPERIENCE

Google for Developers × AICTE

Remote

AI & Machine Learning Virtual Intern

Aug. 2024 – Oct. 2024

- Engineered end-to-end ML workflows including data preprocessing, feature engineering, and model optimization.
- Leveraged Google AI ecosystems and Generative AI tools to architect and evaluate predictive models.

PROJECTS

Intelligent Document Analysis & Summarization System (RAG)

- Tech Stack:** Python, FastAPI, LangChain, ChromaDB, Gemini API, React
- Built a RAG platform utilizing dense vector embeddings and ChromaDB to facilitate semantic search and multi-document synthesis while minimizing model hallucinations.

EduScore AI Automated Essay Scoring System

- Tech Stack:** Python, PyTorch, Hugging Face Transformers, DistilBERT, Streamlit
- Fine-tuned a DistilBERT model to automate essay grading; designed a rubric framework evaluating clarity and structural relevance alongside an intuitive Streamlit interface.

AI Resume Analyzer

- Tech Stack:** Python, Flask, NLP, Gemini API, React
- Architected an AI-powered parsing platform using NLP pipelines and Gemini API for ATS compatibility matching, skill-gap profiling, and dynamic interview question generation.

AI Loan Approval Prediction System

- Tech Stack:** Python, Flask, Scikit-learn, Pandas, NumPy
- Designed a supervised machine learning pipeline to evaluate credit risk, running data optimization across classification models and exposing inferences via a Flask REST API.

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- LeetCode Mastery:** Solved **900+ problems** with a peak **Contest Rating of 1881** (Top tier ranking).
- Hackathons:** Rapid-prototyped software solutions at NMIET × T-Hub Hackathon and built custom workflow automation systems using n8n at Meenakshi Sundararajan Engineering College Hackathon.
- Certifications:** Google for Developers AI & ML Internship Certificate | Cisco Python Essentials 1 & 2.
